**DEADLINE EXTENDED! Yavapai County Seeks Community Feedback on Regionally Significant Corridors Study and Cornville Road/Tissaw Road Roundabout Design Concept Report UNTIL NOV. 20, 2022**

### YAVAPAI COUNTY TRAFFIC STUDY FOR REGIONALLY SIGNIFICANT ROADS

The Yavapai County Public Works Department invites members of the public to share feedback on current issues and challenges they face on **Cornville Road, Pioneer Parkway, Williamson Valley Road, and Iron Springs Road**. Feedback will help Yavapai County better understand current transportation issues and what potential solutions our residents and travelers would like to see along these corridors.

The community is invited to learn more about the study and the Cornville Rd/Tissaw Rd roundabout DCR and complete an online mapping survey at: [KaiProject.com/YavapaiCorridors](https://KaiProject.com/YavapaiCorridors)

**The survey will close November 20, 2022. EXTENDED!**

As Yavapai County continues to grow and change, it is imperative that the County proactively plan for the safety, access, and mobility of its most critical corridors. Yavapai County is currently completing a planning study and a design project to aid in improving four of the County's critical corridors. These projects include:

- Regionally Significant Roads Study
  - Cornville Road Corridor Assessment: SR 89A to Solair Drive
  - Pioneer Parkway Corridor Assessment: Willow Creek Road to Williamson Valley Road
  - Williamson Valley Road: Pioneer Parkway to Shadow Valley Ranch Road
  - Iron Springs Road: Williamson Valley Road to Kirkland Hillside Road
- Cornville Road / Tissaw Road Roundabout Design Concept Report

## Yavapai County

Our Mission: "Yavapai County will serve and protect its citizens through efficient management of all its resources to enhance the lives of those we serve."

---

The purpose of these planning and design projects is to develop a comprehensive long-range plan for managing the corridors and determining what, if anything, can be done to improve the corridors based on needs, public and agency input, and financial feasibility.

For additional information please visit the project website at: [KaiProject.com/YavapaiCorridors](http://KaiProject.com/YavapaiCorridors).
